

Energy Efficiency as the Engine of Viksit Bharat

 3–4 February 2026

 Eros Hotel, New Delhi

The Alliance for an Energy Efficient Economy (AEEE) is proud to present the sixth edition of its flagship event, the Forum on Energy Efficiency and Decarbonisation (FEED). This two-day event convenes key stakeholders – industry, government, and communities – to advance the global commitment to doubling energy efficiency improvements by 2030. FEED emphasises decarbonisation, energy efficiency, and smart energy management as essential pathways toward a net-zero economy. By fostering collaboration and knowledge sharing, FEED plays a critical role in strengthening India's energy ecosystem and addressing pressing energy and climate challenges.

FEED 2026

Building on **FEED 2025**, this year's edition – themed “**Energy Efficiency as the Engine of Viksit Bharat**” – highlights India's transition from intention to implementation to impact. **FEED 2026** will explore how efficiency can power India's vision for **competitiveness, resilience, and inclusive prosperity**, aligning with the national goal of **Viksit Bharat 2047** and the **global ambition to double energy efficiency improvement by 2030**.

Through continued discussions anchored around four **key levers – finance, technology, jobs, and data** – the two-day event will examine how systems, institutions, and accountability can scale efficiency across sectors. The event will spotlight opportunities in **MSMEs, buildings, cooling, transport**, and emerging sectors such as **data centres and digital infrastructure**.
